

### Attacked by Men in Car

Some men who nearly ran him down with their car, returned and threw spears at his truck, Clemente Barajas, 1552 W. Carson St., told sheriff's deputies Friday.

Barajas said he was standing by the side of his truck parked at 25841 Walnut St., Lomita, when a car with four men nearly ran him down. He hopped in his truck, Barajas said, and caught up with them at Lomita Blvd., and Walnut. There, the quartet threatened to beat him up, so he left.

Then he returned to where he had been parked previously. Then the four men returned with spear guns and knives and shot them at his truck as he sped away, Barajas reported.

## Early Airman Announces Retirement From Douglas

T. E. "Eric" Springer, a pioneer airman whose 43-year aviation career extended from piloting fabric and wire planes to producing supersonic jets, announced his retirement this week.

Now vice president-general manager of Douglas Aircraft Co.'s El Segundo division, Springer will retire Sept. 1. A one-time flight instructor and test pilot who began his colorful and successful career in Los Angeles in 1914, Springer reached the retirement age of 65 last January.

He was one of the six former employees of the Glenn L. Martin Co. who joined Donald W. Douglas in 1920 to start what subsequently became the world's largest airframe manufacturing concern.

Springer took over management of the company's El Segundo plant when it consisted of only 200,000 square feet of space and 600 employees and directed its growth to an establishment of more than 4½ million square feet

with more than 25,000 workers.

In accepting the application for retirement, Douglas said: "This company and our industry has traveled a long way since Eric answered my call for help in starting a little aircraft building venture. Some of the route has been rough; some smooth. All of it has been most gratifying because Eric was with me all the way."

"He was a courageous pilot, but one who knew precisely how to prepare for every flight in order to cope with unforeseen emergencies. These qualities he carried successfully into the field of production, administration and management without losing the warm, human touch of friendliness."

"We are all very sorry to lose the active services of an able executive, but we are happy that we will remain close by."

It was Springer who piloted the "Cloudster," first inde-

pendently produced Douglas airplane, on its maiden flight on Feb. 24, 1921. A month later he flew the same airplane to a height of 19,160 feet—without oxygen—to set a new Pacific coast altitude record.

Springer put away his flying togs in the early 1930's to enter the manufacturing department and is credited with installing the company's first production control system.

In 1940, he was selected to head the Douglas El Segundo plant which has been devoted entirely to the design and production of Navy aircraft. He was elected vice president in January 1951.

Among the better-known aircraft produced under Springer's directions has been the SBD Dauntless dive bomber of World War II fame; the AD series of Skyraider attack planes; the F4D Skyray, A3D Skywarrior, and A4D Skyhawk carrier-borne jet aircraft.

### Obituaries

#### Infant Admire

Private services were held yesterday in Halverson-Leavell Chapel of Mr. and Mrs. Kenneth Admire, 5148 Deelane St. The baby died Friday at Torrance Memorial Hospital.

Survivors include grandparents, Alan Admire, Mrs. Marie Knapp, both of Torrance, and Mr. and Mrs. Milford Emerson, Anaheim.

**Frederick W. Ernst**  
Funeral services for Frederick W. Ernst, 1019 Madrid Ave., are pending at Stone and Myers Mortuary. He died yesterday at the City of Hope.

### Meter Plan Studied for Village Area

Riviera Business and Professional Association members are divided in opinions on merits of installing parking meters in Riviera Village.

So said Truitt Berryman, Association president.

He added that there is some strong sentiment against the meters, which are proposed for installation by the city.

At a meeting Wednesday night with Redondo Beach Planning Commission, Berryman pointed out the feelings of his group.

## Boy 7, Rescued In Mountains

A 7-year-old Torrance boy was back home yesterday, little the worse for wear, after spending a whole night alone in the mountains near Crystal Lake while on an overnight camping trip with the Torrance YMCA.

Theodore Ross "Rossie" Conroy Jr., 7, son of Mrs. Lynne Conroy, 18617 Crenshaw Blvd., wandered into a prison camp early Friday morning some four miles from the YMCA camp, where frantic searchers were combing the area for him.

Liked Hike  
Apparently, his experience bothered him very little, since he chattered happily about the squirrels, woodpeckers, and foxes he saw during his night-long nature hike and seemed thrilled to ride in the helicopter which took him back to the camp from which he had strayed. He received some scratches during his trek through the rugged San Gabriel terrain, where the peaks reach 8000 feet, but was not seriously hurt.

Young Conroy apparently wandered away from 60 other campers while on a hike near the camp site late Thursday afternoon. After the group returned to camp, a roll call showed that he was missing.

Wandered Up Slope  
The boy said he apparently wandered up the mountain and through the woods in the opposite direction from the area where the search was concentrated.

He said he played his mouth organ part of the time to keep his spirits up, but lost it somewhere in the journey, which rescuers said was probably about 10 miles.

He said he played his mouth organ part of the time to keep his spirits up, but lost it somewhere in the journey, which rescuers said was probably about 10 miles.

About 9 a.m. Friday, workers at a prison camp spotted him coming up a steep slope, and he was fed and brought back to the rest of the campers by a helicopter.

Father Joins Search  
The boy's father, a Long Beach dance instructor, had joined the search and embraced his son warmly as he alighted from the helicopter.

Afterward, the boy slept soundly at a friend's house in Los Angeles, then went fishing early in the morning when he woke up that night. He stayed at the friend's house because of the steady jangle of telephone inquiries at his mother's home.

His mother, who spent an anxious night while rescue parties were out, said afterwards she felt sure that her boy was safe, but was concerned because he has an abnormal heart condition which has kept him in the hospital at intervals throughout his young life.

He attended Torrance Elementary School last year and has two sisters, Lynne, 12, and Jean, 3.

### North American May Get Missile

North American Aviation's Downey plant — which has been scheduled to lay-off several hundred Torrance employees — may get a new Air Force missile contract.

Congressman Craig Hosmer made the announcement in Washington last week. He said the order would be for B-52 missile parts.

Assignment of the contract, a subject of spirited competition among 13 aircraft manufacturers, would ease the impact of cancellation of the Navaho missile development contract for North America.

Dropping of the Navaho program will throw out of work 15,600 North American employees — the majority at the firm's Downey and Compton plants.

Layoffs Friday brought the total workers released to 5,400.

## Your Family Can LIVE BETTER FOR LESS

When you do ALL you Shopping at

You can serve your family more of the finest foods and give your budget the advantage of consistent savings by shopping at Jim Dandy! Because we buy in large quantities and the cost of our merchandise is less. This is the reason you'll find low prices throughout our store... every day of the week! We offer a wide variety of guaranteed foods... foods that make menu planning easy and every meal a nutritious feast. See for yourself how your family can live better for less... bring your entire shopping list to our conveniently located stores!

# Round Steak

The family will smile when you put one of these wonderful Jim Dandy "BONDED" Steaks on your table! Just wait 'til they taste its delicious flavor... its juicy goodness... its tempting tenderness—for these are not ordinary steaks, they are Jim Dandy "BONDED" Steaks. Cut from fine quality U.S.D.A. Graded Choice grain-fed steer beef.

# 69<sup>c</sup> lb.

### Precision-Cut Ground Round

Enjoy Jim Dandy's famous precision-cut Ground Round... Precision-cut into tiny, tender, individual cuts of the very finest U.S.D.A. "Choice" Steer Beef... BONDED by Jim Dandy. It's not bruised or mashed as with ordinary grinding methods, so you won't get that "oily limp hamburger" flavor... Loaded with natural flavor!... You'll never again want any other kind!

69<sup>c</sup> lb.

### Swiss Steak 67<sup>c</sup> lb.

Tender, juicy, lean rounds, cut thick from U.S.D. Grade Choice Steer Beef "BONDED".

### Rump Roast 69<sup>c</sup> lb.

A truly delicious roast... "BONDED". Makes outstanding Pot Roast.

### Sliced Bacon 59<sup>c</sup> lb.

Dubuque Missisippi. Always sweet and lean. Fries to a rich golden hue.

# Seedless Grapes

First of the Season... truly sweet Thompson seedless grapes. Fresh from Sun drenched Arvin. Large, sweet ripe clusters.

# 2 lbs. 25<sup>c</sup>

# Mayonnaise

Quarts 49<sup>c</sup>

Laure Scudder's... Made of "Farm Fresh" ingredients, blended in just the right proportions...

2-lb. Can \$1.59

# Tissue

Soft-Weve

1000 Sheet Roll

10<sup>c</sup>

### Downyflake Waffles 6 Pack 15c

Frozen... Ready to serve... Just pop into the toaster.
